三:

commutes the furthest every day. Haddow, who spends more than six hours traveling each day, was the winner.

He saves time by shaving the night before, gets up before six o'clock, and has cereal for breakfast so that he doesn't need to cook. A high-speed train takes him to London at 200 kilometers an hour. In London, he jumps into a taxi to get to his office, where he works as an engineer in the oil industry.

Why does he do it? "I love Wales, the golf, the low cost of living. London is noisy and dirty, the people are unfriendly, and the houses are expensive."

Haddow's prize was a rail holiday for himself, his wife, and their two children.

D. Listen to the passage and complete the following sentences (听短文,完成下列内容。每空格限填一词)

Brave William Baldock, who is six years old, is a hero after helping his mother when she fell downstairs. William quickly rang for an ambulance when he discovered his mother had broken her leg. Although he was very frightened, he told the emergency services what had happened and answered all the questions they asked him. He also telephoned his father at work, and then his grandmother, to explain what he had done. While waiting for these people to come, William calmed down his 18-month-old sister.

When ambulance man Steve Lyn went to the house, he was amazed: "It's great that a young boy of six knew the right number to dial, and was able to give us the correct information. Because of William's quick thinking, we were able to find them immediately."

Mrs Baldock left hospital yesterday, very thankful to both William and the ambulance service.

2020 初三英语暑假班精编教案第十五讲参考答案

一: 二: 略

三:

table or desk. Sitting on the floor in a doorway or close to a wall is safer than standing in the middle of a room. Remember to protect your head and neck with your arms. Stay away from windows and tall furniture or anything that may fall on you. Do not try to run out of the building.

If you are out of doors, move to open areas where there are no buildings or trees. Be very careful of fallen power lines.

The danger is not over when the strong shaking stops. There will be some shocks after most earthquakes. We call them aftershocks and they sometimes can be more dangerous than the first earthquake.

When it is safe for you to move around, check the people near you. Some may need help. You may feel afraid, but you should try to stay calm. That is the most important thing to do in the earthquake.

(21. in cities 22. the safest 23. fall on 24. open areas 25. stay calm)

Part 2
